Calgary, Sept. 15.—Regarding the appointment of T. M. Tweedie and A. H. Clarke to the supreme court bench is generally approved in this province, both among the legal profession and among the people in general.

"Mr Tweedie is one of the most popular men in this province. He

has been a leading Conservative but has always played the game fairly and well, and numbers among his friends scores of people in the opposite side of politics.

"A. H. Clarke, who is a Liberal, has not been in public life in Calgary. He is regarded by the legal profession as the leader at the bar in this province. He has the reputation for the highest honor and will no doubt be an exceptionally good judge."

## The Mistake Of Hoarding

Canada, like all countries of the first class, has journals and publications, whose business it is to reflect and promote the special and particular interests of certain classes and institutions. There are trade journals devoted to the interests of almost every conceivable line; financial papers dealing with banking, insurance, loan, trust and mortgage corporations; papers promoting the welfare of the coast and all important industry of agriculture and stock raising; labor publications discussing the cause and recording the activities of organized labor; purely political newspapers devoted to advance the cause of this or that party or organization or political principle; journals and magazines maintained by churches and philanthropic and social service organizations; and straight out newspapers.

All these many publications are legitimate, trustworthy and play an important and proper part in the life of a country like Canada providing they are straightforward and honest. The paper in which this article appears is, however, first, last and always a house paper devoted to recording the news, activities and upholding the interests of the people in the local community in which it circulates. It does not seek to serve any particular group, but the whole people of its own community and thereby help to advance the welfare of all. It does not profess to attempt to right the wrongs of the world or to solve the gigantic problems of the present, even to so far as the local community is concerned. It is not interested by the ordinary everyday citizen being in these directions. It is for this reason that so many of the articles appearing in this column are addressed to the individual according to a small and perhaps inconspicuous part of the national life, but nevertheless of the really great and influential factors making for national stability and progress—in fact, the basic, the greatest factor of all.

In common with all countries, Canada is suffering, although not to the same extent as most lands, from a business depression resulting in tight money, a slackening in industry, high freight rates and high prices generally for commodities and a serious lack of employment for thousands of willing and anxious workers. Can the country meet the needs of the time as the present? Everybody recognizes this and the average citizen, especially experts in the field, demands that the impossible be done in an effort to right matters. What is not so well recognized and appreciated is that each individual citizen can in a small way do much to change the conditions, and if all individuals, or a large majority of them, do this, the change will be great. The individual can do this by not hoarding, by not anything. Governments or corporations may do, and would make action possible by which they are now powerless to take.

Take, for example, one present article—condition—tight money. Hundreds of millions are required for national purposes and some of the most important for financing the purchase and marketing of this year's crops, not to speak of the enormous sums necessary to keep the wheels of industry revolving in the present depressed state of business in order to prevent an actual shutdown in many directions. Can the country meet the needs of the time as the present? Everybody recognizes this and the average citizen, especially experts in the field, demands that the impossible be done in an effort to right matters. What is not so well recognized and appreciated is that each individual citizen can in a small way do much to change the conditions, and if all individuals, or a large majority of them, do this, the change will be great. The individual can do this by not hoarding, by not anything. Governments or corporations may do, and would make action possible by which they are now powerless to take.

It is well, therefore, that the individual citizen should be made aware of the conditions which are real economic facts. The business of the world is a credit on credit. In order that credit may be established and provided it is necessary that there be something substantial back of it. For this reason Governments and all banks and financial institutions maintain reserves in gold or liquid securities. It is a well known fact that a dollar deposited in a Bank serves as a source of credit for many times that amount. It is stated on reputable authority that a dollar deposited in a Bank provides for the benefit of all borrowers included in the country, anywhere from five to ten dollars of credit for the carrying on of business.

Yet there are many people who through fear, selfishness or ignorance, keep money in varying amounts in the house from year to year and they not only miss the use of their money, but also lose the opportunity to which their money on deposit would earn for them, but through the mistake of hoarding they are depriving the community of the incalculable benefits of their money placed in a recognized Bank would provide for the benefit of all borrowers included in the country, anywhere from five to ten dollars of credit for the carrying on of business.

A writer in a well known financial journal estimates that at least \$500,000,000 of State loans are hoarded away in homes which, if placed on deposit in Banks, would serve as a source of credit for from \$25,000,000 to \$50,000,000 and go a long way towards relieving the present credit situation. This writer points out that the hoarding of money in homes is a waste of money, and that the best way to get the most out of it is to put it in a Bank, where it will earn interest and be available for use when needed. The writer also points out that the hoarding of money in homes is a waste of money, and that the best way to get the most out of it is to put it in a Bank, where it will earn interest and be available for use when needed.

## SUNDAY SCHOOL LESSON

LESSON FOR SEPTEMBER 25

REVIEW.

Two methods may profitably be employed in the review of the lessons of the Quarter. First, a biographical sketch of the Apostle Paul, such as his birth, home training, education, conversion, teaching and missionary work, and second, the leading teachings of the lessons, which may be made prominent by summarizing the facts of each lesson and stating the most vital teaching thereof. The first method can be used in reviewing the lessons in all departments and grades, and can be easily employed by the teacher. The second method will be preferred by many in the senior and adult classes.

The following is given by way of suggestion:

Lesson 1. Paul was born at Tarsus, of Hebrew parentage. He was brought up in a glorious Jewish home, thoroughly imbued with the spirit of devotion to the Scriptures. He was educated at Jerusalem in the school of Gamaliel. The chief text book was the Bible. In addition to his religious training he was taught a trade which gave him a worldly livelihood, enabling him to support himself while preaching the gospel.

Lesson 2. In Paul's training as a Jew, he was taught to love his own nation, to love God his law, and to be zealous toward God, that is, to love God for God's sake.

Lesson 3. Paul's burning hatred of Jesus led him to endeavor to stamp out the Nazarene heresy. He went on his way to Damascus, with authority to arrest and imprison the believers, men and women. He was zealous and full of zeal, and he was zealous toward God, that is, to love God for God's sake.

Lesson 4. Paul's burning hatred of Jesus led him to endeavor to stamp out the Nazarene heresy. He went on his way to Damascus, with authority to arrest and imprison the believers, men and women. He was zealous and full of zeal, and he was zealous toward God, that is, to love God for God's sake.

Lesson 5. When the religious awakening at Antioch had led to the arrest of the Jerusalem church, Paul was sent to inspect it, and seeing help was needed he brought Paul from Tarsus to be his helper.

Lesson 6. After teaching a year at Antioch, the Spirit moved the church to send forth Barnabas and Paul to preach in the synagogues. The church was full of zeal, and he was zealous toward God, that is, to love God for God's sake.

Lesson 7. As Paul and Barnabas were preaching at Iconium, an attempt was made to stir up a mob against them. Their efforts were frustrated by the tact of Paul. Soon after this Paul was stung by a serpent, but he was not hurt, and he was zealous toward God, that is, to love God for God's sake.

Lesson 8. Paul's preaching at Iconium led to the brethren brought on a controversy in the church at Antioch. The question in dispute was "Should Christians be circumcised?" Paul and Barnabas were divided on the issue, and they went to Jerusalem to settle the matter. The church was full of zeal, and he was zealous toward God, that is, to love God for God's sake.

Lesson 9. The Spirit forbade Paul from going to Jerusalem, and he went to Macedonia instead. He was full of zeal, and he was zealous toward God, that is, to love God for God's sake.

Lesson 10. The casting out of a demon from a young woman resulted in a scandal at Philippi. Paul and Silas were imprisoned, but they were not hurt, and they were zealous toward God, that is, to love God for God's sake.

Lesson 11. Being driven from Philippi, Paul and Silas went to Thessalonica and there Paul preached the gospel on the Sabbath. The church was full of zeal, and he was zealous toward God, that is, to love God for God's sake.

Lesson 12. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 13. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 14. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 15. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 16. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 17. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 18. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 19. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 20. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 21. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 22. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

Lesson 23. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

## China Will Refuse Japan's Proposals

Claim That Award of Shantung Was Illegal.

REVIEW.

China will refuse to entertain Japan's proposals relative to settlement of the Shantung controversy. It is declared by a person in the confidence of the administration. He will base his opinion on the fact that the award was illegal and that Japan has no right to the privileges in Shantung which were conferred by concession upon Germany and which were turned over to Japan at the peace conference.

## A CORDIAL INVITATION TO DISEASE

REVIEW.

This is an apt description of the condition to which the body is brought by the system with poison, brings on disease. You don't get a purgative, you don't want to weaken the system by a harsh purgative medicine. You get just what you need, the healthful food, the healthful living, the healthful work, the healthful play, the healthful rest, the healthful sleep, the healthful thought, the healthful action, the healthful feeling, the healthful being, the healthful doing, the healthful having, the healthful becoming, the healthful being, the healthful doing, the healthful having, the healthful becoming.

Lesson 1. Paul was born at Tarsus, of Hebrew parentage. He was brought up in a glorious Jewish home, thoroughly imbued with the spirit of devotion to the Scriptures. He was educated at Jerusalem in the school of Gamaliel. The chief text book was the Bible. In addition to his religious training he was taught a trade which gave him a worldly livelihood, enabling him to support himself while preaching the gospel.

Lesson 2. In Paul's training as a Jew, he was taught to love his own nation, to love God his law, and to be zealous toward God, that is, to love God for God's sake.

Lesson 23. Paul in this lesson tells of his great indignation which should awaken the believer's life, the sun and substance of which is: "Whether therefore ye eat or drink, or whatsoever ye do, do all to the glory of God."

## Capitalizing The Home

REVIEW.

REVIEW.

BY LORETTA C. LYNCH  
An Experienced Expert in  
All Matters Pertaining to  
Household Management.

In a small town in the Middle West where the husband and father built a town home for the erstwhile family he decided it should be the best in the room, when every woman was sewing for the Red Cross. Mrs. Turner was one of the women who were sewing for the Red Cross. Mrs. Turner was one of the women who were sewing for the Red Cross.

Then the day came when a lawyer announced to Widow Turner that the home, free and clear and in her own name, was all she had left. Mrs. Turner decided to capitalize it.

There were several organizations in that town, social, political and philanthropic. There was a town hall, no meeting place, and so it was necessary to meet at the homes of members.

Mrs. Turner offered to rent her larger parlor for an afternoon or an evening for fifteen dollars. The ladies of the town hall, no meeting place, and so it was necessary to meet at the homes of members.

Mrs. Turner offered to rent her larger parlor for an afternoon or an evening for fifteen dollars. The ladies of the town hall, no meeting place, and so it was necessary to meet at the homes of members.

## Well Known Farmer Declares He Only Had Bare Fighting Chance

REVIEW.

"When I began taking Tanlac it looked like I only had a bare fighting chance for life, but it put me on my feet feeling as fine as any man could want to feel," said William Padfield, well-known farmer living at Kipling, Sask.

"I was so emaciated that I only weighed 120 pounds when I started taking Tanlac, and was so weak I was almost in a state of collapse. I could not get any good out of the little bit of food, as my stomach was in such an awful condition that even the lightest food caused and caused me misery."

JOTTINGS  
OF  
TOWN AND  
DISTRICT

## Local News.

W. M. Cottle is erecting a residence in the north end of town.

Mr and Mrs Ruben Smith are spending a short vacation in Edmonton.

S. Barker, of Millet, paid a number of his friends in town a visit on Sunday.

Mr and Mrs Neff and Mrs W. J. Lorimer motored to Calgary the first of the week.

Mrs Henry Taylor is spending a few days with Mrs Mark White, cotton, Bashaw.

Mrs Addison Haver, of Edmonton, is visiting with relatives in our midst.

Joe Wyman has been on a visit to his son, Harold, who is farming in the Peace River district.

Mrs Geo. J. Albrecht, of South Edmonton, has been spending a few days with her daughter, Mrs W. Mullins.

El. Palewand, who underwent a serious operation in Wetaskiwin hospital, is now progressing favorably.

Miss Mabel Morris is in Red Deer Hospital, where she was operated on for appendicitis, and by latest reports is doing nicely.

The Misses Christensen, who have been spending the summer with Mrs Carl Mortenson, left for their home in Omaha last week.

Mrs R. L. Caldwell, of Spokane, is visiting with her sisters, Mrs Clarence James and Mrs A. J. Taylor.

Misses Jennie Hamby and E. F. Johnson were in town over Saturday. Motored up from Calgary with A. D. Crawford on Saturday.

Ed, Devlin, of Edmonton, Jas. Dunn and Chas. Bingham, of Calgary, visited with the Robertson Bros., of Olive, recently. They had a great holiday, duck shooting being the main attraction.

A. M. Matheson, M.L.A. of Chipewyan, and his brother, Robert, were in our midst for a few days last week. Robert has just arrived from Scotland, and may make his home in Alberta. They were guests of Mr and Mrs J. C. Bell.

Miss Mabel Bullock, a popular bride to be, was the recipient of many beautiful and useful presents at a linen shower given in her honor at the home of Mrs Howard Ephraim on Tuesday night last. The company had a most enjoyable time with music and games, after which lunch was served, and the party broke up about midnight.

Some of the bad spots on our streets have been receiving attention, for which we are all truly thankful. Now that the busy season is about over, let us be able to make a like report on the country roads. Some of them are badly in need of repair.

Brady & Morgan have a special price on 14 in gang plows—complete at \$145.00.

Premier Grandfield is authority for stating that the by-elections will be held before Christmas.

McLAREN—On Monday, Sept. 12th, to Mr and Mrs F. McLaren, a son.

WIANCO—On Monday, Sept. 19th, to Mr and Mrs Albert Wianco, a daughter.

The Thursday half-holiday comes to a close after Thursday, Sept. 22. The afternoons have been much enjoyed.

Our stockholders are busy handling fruit, and to see the supplies our farmers are taking out, a brisk trade must be the result.

A number of strangers are in our midst at present. Some visiting with friends and others "looking over the situation."

Remember the Rally Day services at the Union church on Sunday and rally social on Monday.

Now is the time of the year for the big potato. So far the honor is with J. H. Higginson, who dug up a Murphy in his garden which weighed 4 lbs. 10 oz. Any party who can beat that will please leave the proof at Herald office.

Harvesting is finished, and the threshing rigs are busy throughout the land. The crop has been secured in excellent shape, and not only is the yield high but the quality No. 1. During the past ten days the weather has been ideal and much work accomplished.

Aston and Otto Lux are enjoying a visit from their father, Joseph Lux, and brother, Charles, also their brother-in-law, Frank Schlegel, of Shelby, Nebraska. The party are having an enjoyable holiday among their many relatives and friends.

In conversation with Jas. Harris, farm manager at the Hospital, he reports that on a 15 acre field of oats the machine measured out 105 bushels to the acre, and on a like field of wheat the yield was 56 bushels. This is surely about a record.

M. M. Mckenburg is leaving for the north country on October 10th, and will not return till Nov. 10th. Parties having trouble with their eyes should consult him on his next visit—Sept. 25—as he will not be in town again till the 20th of November.

Two Rooms to rent. Suitable for housekeeping; partly furnished. Phone 74, Ponoka.

Suffolk, England—Mr N. A. Hardwick, of Bloomfield's Farm, Dedham, has just threshed a field of wheat, the yield averaging 70 bushels an acre. The crop was grown from Yeoman seed.

Lindsay, Ont., Sept. 29—Douglas Keith thirty-four years of age, was in the Royal Bank at Calgary, died suddenly at Sturgeon Lake, Sunday from acute indigestion as the result of eating a number of green apples for supper. The body was taken to his parents' home in Welland for burial. A wife and one child of seventeen months survive.

## New Regulations Which Will Govern Admission To Canada

Regulations governing the admission to Canada of immigrants, published in the Canada Gazette for week of Sept. 12, provide that each immigrant over 19 years of age, must have at least \$250 in his possession in addition to a sum sufficient to cover land transportation charges. In the case of immigrants under 18 years of age, \$125 is required, while parents must possess \$50 for each child under the age of five.

These regulations are waived in favor of labor and domestic servants and in favor of persons travelling to join their families.

## FORMER ALBERTA MINISTER URGES TAKING BURDEN FROM AGRICULTURE

Ottawa.—This country will be made great by making agriculture a chance. Take the burden off its back and Canada will become the country we dreamed of in the wildest flight of our imagination.

These were but a few of the cryptic statements in an address delivered by Hon. Duncan Marshall, former minister of agriculture for Alberta, at the luncheon tendered by the Canadian Exhibition directors to the Marshall exhibitors and breeders here.

Mr. Marshall warned that to increase the prices of farm products within the next few years was not within the range of possibility. The solution of agricultural problems with respect to raising demand for the production of the cost of production. More efficiency in agriculture and efficiency derived through education and training, was needed in Canada.

## Grain Exchange Appoints New Head

Retiring President Says Producers Should Understand Marketing Methods.

Winnipeg.—C. H. Leaman was formally elected president of the Winnipeg Grain Exchange, succeeding Norman L. Leach, retired, at the annual meeting. J. B. Craig and Dr. Robert Magill, vice-president and secretary-treasurer, respectively, who were elected by acclamation along with Mr. Leaman at the nomination meeting were also installed in office.

A resume of the past year's work in the grain trade and the program for the general improvement of the trade was the feature of the retiring president's address, which stated: "There is today a wider and keener interest in grain marketing methods and systems; there are many criticisms of these methods. They should be more clearly understood by the producer, the business and general community at large, and I submit to you the suggestion of a more united and education of your trade, your customers and the general public toward that end."

## Armenians Held At Ellis Island

Alleged Flaw In Immigration Law Prevents Entry Into U.S.

New York.—Three hundred Armenians, mostly women and children, who came to the United States to escape from the Turks, are held at Ellis Island for deportation back to Turkey because of an alleged technical flaw in the immigration and naturalization laws, which prevent Armenian immigration altogether.

George H. Topkanyan, general secretary of the Armenian Immigrant Welfare Society, said four Armenian women had drowned themselves at Ellis Island during the last year when denied admittance and predicted that many of the 300 now held would kill themselves rather than return to Turkey.

## Rebel Activity Increasing In India

LONDON.—The India Office has issued a statement dealing with the situation in India which says that the military is experiencing increased difficulties in dealing with the rebels in the Malabar district, who are in five separate bands, aggregating 3,000 men. The communication also said that owing to transport, communication and intelligence difficulties since September 12, the rebel activity is increasing.

## League of Nations May Be Increased To Fifty Members

Geneva.—The membership of the League of Nations will be increased to 50, if the assembly adopts the recommendation of the political committee, which decided to approve the admission of Latvia and Estonia. The applications of Lithuania and Hungary were put over, the committee deciding to await M. Hymans' report on the efforts to settle the Vilna dispute before acting on Lithuania.

Hungary's application will not come up again until later.

The political committee also decided to recommend to the Supreme Council the inclusion in the eventual peace treaty of the Committee of Four, whose safeguarding the interests of Armenia.

The preponderance of the British and French on the secretariat and the labor bureau is being severely criticized by the representatives of the smaller states.

## Cattle Should Go To British Market

New Westminster, B.C.—"We must build up trade within the Empire," declared Hon. S. F. Tolmie, Minister of Agriculture, at a recent gathering of farmers from the Fraser Valley. There are 68,000 cattle ready today," he continued, "according to reports of our department, and every head should go to the British market." It was proposed to give more support to Experimental Farms and agricultural education generally, he said.

## Trial Shipment Proves Failure

Alberta Government Lost On Shipment of Beef Cattle.

Edmonton, Alta.—The trial shipment of live beef cattle that was sent to Scotland in June by the provincial government, failed to make a net loss to the government. They show an average cost per head of \$18.67, with an average return of \$18.88. There were thirty-five head of export steers in the shipment. The animals were shipped to Glasgow and then sold at the public market for immediate slaughter.

When the steers left Edmonton they stood at a cost to the government of \$18.67 per animal, and the transportation charges, Edmonton to Glasgow, were \$10.02 per animal. The steers were sold at the Glasgow market for an average of \$18.88 per head, bringing the total cost per head to \$28.69. Records kept in cattle show that there was practically no shrinkage in any of the animals. The sales in the Glasgow market showed that the smaller lightweight steers of good type and breeding, ranging from 1,200 to 1,350 pounds were most in demand, the heavier fat steers not meeting with ready sale for the summer trade.

## Cattle Starve In Lower California

Rainfall Light For Three Years and Pasture Scarce.

Mexico City.—The economic situation in the southern districts of Lower California is described as insupportable by travelers recently returning from that region. Rainfall has been exceedingly light in the region for the past three years and the scarcity of pasture has caused the death of thousands of heads of livestock. The inhabitants are said to be in destitute circumstances which have been aggravated by a recent federal order prohibiting foreign exports from transporting merchandise between Mexican ports. This order, which reached Mexico City, has caused the national merchant marine has virtually isolated the region as only two Mexican vessels are engaged in coastwise trade there and most visits are at many weeks' intervals.

Protests to President Obregon by the inhabitants of the district are expected to relieve the situation.

## Chinese Canadian Trade Increases

Net Increase of 840 Per Cent. in Five Years.

Hamilton, Ont.—China and Canada have much in common, and their trade relationship is growing substantially every year, declared W. V. Kwan, chairman of the Chinese Railway Commission to members of the Kinsmen's Club. He emphasized that in 1918, the last year in which statistics were available, China had imported and exported goods more than to Canada valued at more than \$17,000,000, which when compared with 1913 figures showed a net increase of 840 per cent.

The length of the railway from Vancouver to Montreal is 4,743 feet as against 695 feet of the Z.R.2.

## Will Recatalogue All In France

Police Chief Orders Every Thumb Print Registered.

Paris.—The entire French nation, as well as all foreigners residing in France, will be recatalogued and compelled to register their thumb prints, according to a new law issued by the Police Chief Loubet.

Identification of crime suspects and the detection of criminals is expected to be made easier under the new system.

## Heavy Grain Shipment From West

Winnipeg.—Approximately 10,000 bushels of grain have been billed over the Canadian National Railway from western points to Sept. 14. This is more grain than was loaded up to October 4, last year, it is stated.

## Pneumonia In Australia

LONDON.—A Renter cable from Adelaide, South Australia, announces the arrival there of Pneumonia John. Johnson says the United States will remain dry and that England will be dry by 1930.

## Spending Money At Home

Spending your money at home, thereby helping your own town and local merchants.

R. J. Smith, Publisher of the Advertiser, Chicago, Ill.

## British Dirigible May Replace ZR-2

U.S. Government Wants to Obtain Former German Zeppelin.

LONDON.—Reports that the United States and British governments have arranged for the transfer of one of the Great Britain's remaining airships to the United States, since this country is in the process of contracting for the ZR-2, could render the desirability of obtaining one of the former German Zeppelins for experimental and instructional purposes.

When these German airship fighters were used to attack Italy, France, and Britain received one each and America none. Great Britain's Zeppelin, the L-71 is the largest and most modern in existence, none but the ZR-2 is gone. Her cubic capacity is 2,210,000 feet or 380,000 cubic meters. The length of the ship is 171 feet 7 inches and the height of the hull is 74 feet 3 inches against 69 feet of the ZR-2.

## U. S. Ships Grain From Montreal

Get Cheaper Freight Rates and Premium On Money.

Ottawa.—During the past two months large quantities of American grain have been shipped via Montreal, says a report issued by the transportation branch of the Dominion Bureau of Statistics. This grain is shipped via Georgian Bay ports and by rail to Montreal and also by the water route through the Welland Canal.

The premium on American money and the elevator charges at New York have been the chief factors in making the route from Chicago, Duluth and Milwaukee about 2 1/2 cents per bushel less than via Buffalo and New York. Both the lake and rail and all-rail rates from Port Arthur and Fort William to Montreal is over 5 cents a bushel less than via New York. The payment in Canadian currency reduces this still further and more than offsets the heavier insurance rates from Montreal.

Toronto.—The Canadian Steamship Company, it is stated, has laid up six boats, equal to 125,000 tonnage, because of congestion at eastern lake ports.

## Turks Must Surrender Plotters

Constantinople.—Allied authorities here have invited the Turkish Government to surrender the men involved in the revolutionary plot discovered which was announced recently. These persons must be turned over to the allies within a week, or the government will be held responsible. The conspirators will be tried by an allied court martial.

## Disagree Over After-Ten Hours Conference

St. Catherine's, Ont.—After ten hours' conference the contractors and union men engaged on the Welland Ship Canal have agreed to disagree on the question of wages and other points at issue and it is now up to the government to decide.

## Visit Canada In 1924

LONDON.—The visit of the British Association for the Advancement of Science to Canada is likely to be in 1924, as preliminary arrangements have been made for this. Next year's meeting will take place in Hull and the next in Liverpool.

## Chilean Speaks Fast

Paris.—Chile is fast gaining in the countries bordering Russia. The daily average deaths in Tiflis alone is between 30 and 40.

## U. S. Men Leave For Spain

New Orleans.—In the case of "Hull, Hull, Hull," the three men, branded with a curious badge of national dishonor, including many former service men, who have volunteered for service in the Spanish war, are being sent to Spain by the U.S. Navy.

Leading the contingent was Serg. W. J. Hall, of Detroit, who served during the war with the Canadian forces, and wears four decorations.

## List Suggested Topics

Washington.—The United States Government has sent to the government of the United Kingdom a list of suggested topics for discussion at the conference on the limitation of armaments and Far Eastern questions a list of the topics suggested for discussion.

## Patronize Your Local Merchant

Patronize your local merchant and thereby help to build up your home town and community.

## Asks Help For Russians

LONDON.—Dr. Nansen has issued an appeal in behalf of stricken Russia, addressed to the people of the Imperial British Commonwealth "in substance generally to the national fund organized by the British famine relief committee." Dr. Nansen declares that if the financial problem be adequately and promptly solved, "the bulk of the stricken people may yet be saved."

## Five Irish Delegates Appointed To Conference

Dublin.—The Dail Eireann approved its "cabinet" reply to Mr. Lloyd George's latest proposals and ratified the appointment of five delegates to a "possible conference" with representatives of Great Britain.

The appointments of plenipotentiaries approved were those of the following: Arthur Griffith, founder of the Sinn Fein and "foreign minister," Michael Collins, "finance minister," Robert C. Barton, who has been one of the leading figures in the preliminary negotiations; Eamon J. Duggan, Sinn Fein member of parliament and a leading figure in the arrangement of the Irish truce; and James Connolly, who has acted as representative of the Sinn Fein abroad.

Nothing has been said as yet as to whether the reply is acceptable or non-acceptance of the invitation to a conference, but the fact that the plenipotentiaries have been appointed is taken as indicating confidence in the continuance of the negotiations. Mr. Lloyd George is expected to remain in London at least another three weeks.

## Italy Has Good Harvest

Crop Expected to Reach Pre War Productive.

Rome.—Italy's harvest this year will reach its pre-war productive according to the government crop forecasts. The total harvest anticipated is 2,200,000 quintals, or about 220,000,000 bushels, comprising all kinds of grain.

The average pre-war crop was 2,000,000 quintals, or 200,000,000 bushels. During the war, production decreased to 1,800,000 quintals.

The present year's crop is also distinguished by the fact that it lacks about 600,000 in the total grain crop of Italy, which was in 1915, when it reached nearly 3,000,000 quintals.

## Grain Rates Reduced

Difference of Seven Cents Per Bushel From Port William.

Ottawa.—An announcement made by the Railway Association of a further reduction in the rates on grain and grain products from Port William via Atlantic ports. The reduction amounts to 7 cents a bushel, and is in addition to the 1-cent reduction given earlier in the year and the 5-cent reduction in January.

A reduction of 45 per cent. on the rates for domestic consumption that is moving between Port William and Montreal, is also being put into effect.

## Work For Unemployed In Fort William

Foundry Company Is To Receive Order For Repairing.

Fort William, Ont.—The Fort William Foundry Company is to receive an order for repairing 1,000 government cars, according to a telegram received here from Dr. R. J. Manion, M.P.

The order is for the repair of 1,000 feet of broken work to be added to the Mission breakwater, work to start immediately. The order is for the repair of 1,000 feet of broken work to be added to the Mission breakwater, work to start immediately.

## Accept Further Decrease

Municipal Employees of Johannesburg Agree to Third Reduction.

LONDON.—A Renter dispatch from Johannesburg, South Africa, reports that a conference of the municipal employees all grades of the service decided to accept a reduction of five per cent. in their wages.

The reduction of five per cent. which has been voluntarily accepted by the employees. The present reduction is 10 per cent. on the point of \$20.00 for each quarter of a year.

## Chicago Builders Return to Work

Chicago.—The building industry of an operation in the Chicago building industry, and spurred to action by the return of Judge Ladd, who, to grant a wage decision, stating that they are at work, union men in the building industry have been refusing back to work in large numbers.

## Fire Destroys Lumber

Stewiack, N.S.—One million feet of lumber were destroyed here by a fire which broke out in one of eight fire piles. The lumber was piled near the railway tracks and all Canadian Pacific telegraph poles in the vicinity were burned and the wires put out of commission.

## Chicago Builders Return to Work

## Alberta Government Anxious To Develop More Coal Markets

## U. S. Boats Cannot Unload Without Permit

Railways Will Control Movement of American Grain.

Montreal, Que.—In order to prevent the harbor of Montreal becoming choked with American grain, to the detriment of Canadian shippers, both the Canadian Pacific and Grand Trunk Railways have decided to control the movement by applying the permit system to American grain coming to Georgian Bay ports for transport to Montreal. In future, no boat can come from American lake ports to Port Minto or Tiffin, Ont., without a permit to unload.

American grain has constituted about 40 per cent. of the total shipments from the port of Montreal this season of navigation. At the beginning of the season it was all Canadian, and at the present time it is about 60 per cent. American and 40 per cent. Canadian. The proportion of Canadian grain, however, will be lower with the arrival of the new crop.

## Italy Has Good Harvest

Crop Expected to Reach Pre War Productive.

Rome.—Italy's harvest this year will reach its pre-war productive according to the government crop forecasts. The total harvest anticipated is 2,200,000 quintals, or about 220,000,000 bushels, comprising all kinds of grain.

## WEDDINGS

### GALBRAITH-GORDON

The Union Church, Ponoka, was the scene of an exceptionally pretty and popular wedding at noon on Wednesday, September 11th, when Miss Helena Mackenzie, eldest daughter of Mr. and Mrs. George Gordon, of Ponoka, was united in marriage to Mr. John H. Galbraith, of the Canadian Bank of Commerce, Fincher Creek, son of Mr. and Mrs. J. H. Galbraith of Biggar, Scotland—Rev. Chas. Bishop performing the ceremony.

The church, which was crowded with interested friends and spectators, was beautifully decorated with holly, poinsett plants and autumn foliage.

To the strains of the wedding march, played by Mrs. T. J. West, the bride entered the church on the arm of her father, making a charming picture in her gown of ivory satin, with beautiful veil carrying with orange blossoms and white heather, and carried a bouquet of garden roses. Her bridesmaid, Miss Esther T. Johnson, of Calgary, was beautifully gowned in white tulle, and carried a bouquet of white roses, and a large picture hat, and carried a bouquet of mauve and white roses. Miss Marjorie Gordon, sister of the bride, acted as flower girl, carrying pink carnations. Mr. John Alexander, of Fincher Creek, escorted the groom, while Miss Mary, of Edmonton, and Miss Guinevere Givlin were ushers.

During the signing of the register Mrs. C. J. Malcolm, of Calgary, sang "Because."

After the ceremony a reception was held at the home of the bride's parents, Donald Avenue, where the guests were received by Mrs. Gordon. The rooms were beautifully decorated with quantities of cut flowers, following out a dainty color scheme in pink and white. Mrs. J. C. Beck, of Kerrobert, and Mrs. John Barclay, of Edmonton, poured tea, while the girl friends of the bride assisted in serving.

Mr. and Mrs. Galbraith left by automobile on an extended tour, after which they will make their home in Fincher Creek.

### SAVERS BULLOCK

An interesting event took place at the Union Church here on Thursday, Sept. 15, at 1 p.m., when Mabel Irene, eldest daughter of Mr. and Mrs. Fred Bullock, of Wool River, Ponoka, was united in marriage to Harry Darrell, eldest son of Mr. and Mrs. Arthur Boyer, of Ponoka. The room was tastefully decorated with plants and out flowers, a large wedding bell forming a centre-piece. The bride, who looked very pretty in a brown broadcloth suit, accompanied by Mr. and Mrs. Paul McKelvey, while the groom's brother, Rev. W. S. Boyer, acted as best man. Rev. C. Bishop performed the ceremony.

The happy couple left on the north-bound train for Edmonton for a short honeymoon, after which they will make their home in Ponoka.

### AGED FAMOUS MEN

What will you be doing in your old age? Will you be sitting on an easy chair, stroking your white hair?

Consider the Earl of Halsbury—80 years old, the oldest individual in the British House of Lords, where he is leader of the Conservatives or "Old hands." In his prime one of the greatest English lawyers he became Lord Chancellor in 1885, and served until 1906, when he was 83. Now, preparing to celebrate his one hundredth birthday anniversary, he is busily supervising the writing of a 28-volume edition interpreting the whole law of England.

The Earl of Hinchinbrook, in founding out his sixty-eight years of service in the House of Lords, and his 80-year-old Baron Kersley, both extremely active.

Compared with these English politicians U.S. Senator Lodge, 71, is a

## NOVEL ENTERTAINMENT

[From Saskatoon Daily Phoenix, Sept. 10]

An entertainment that was as unique as it was enjoyable was presented at the Y.M.C.A. Gymnasium last night for several hundred young men, mostly barbers, awaiting assignments to the farms. Mr. Thomas Elmer Lacey of St. Louis, Mo., who is making a world tour under the direction of H. H. Davis, of Edmonton, gave the story of a Service Flag, consisting of original and selected songs, stories, character impersonations and lightening crayon sketches, all interspersed with a running line of wit and humor. Among the features that were most appreciated were portraits in make-up and costume of Abraham Lincoln,

## The Usual Show

George Washington, Senator Bob Taylor and Bill Nye, humorous impersonations of several characters heard at a Southern old-time literary society and several songs, which the entertainer illustrated rapidly in colored crayon while he sang them.

Mr. Lacey reports a delightful tour with the Canadians, and is charmed with the degree of appreciation that he finds in the great Northwest. Incidental to his long, which is to embrace New Zealand, the Orient, the Holy Land and Europe, he is writing a series of travel letters for periodicals.
